

PATRIOTIC DOCTORS UK FOUNDATION

RELIEF. RIGHTS. RENEWAL.

CARE. DIGNITY. RECOVERY.

Professional expertise. Humanitarian purpose.

Patriotic Doctors UK Foundation aims to help anyone in need of medical care or support for illness, injury, disability, pain or related hardship, wherever they live. This includes people affected by repression, violence or displacement. Assistance is based on assessed need and available resources.

Who we are

We are five founding clinicians working across medicine and dentistry in the United Kingdom and Germany, united by a shared responsibility to protect human life and dignity.

What we aim to achieve

Access to appropriate care

Help people in need obtain medical assessment, treatment, medicines and essential care-related support.

Recovery after trauma

Support rehabilitation, physiotherapy, psychological support, prostheses and assistive devices.

Relief from health-related hardship

Help with essential travel, interpreting and records translation where these are needed to access care.

Assistance will be based on verified need and vulnerability, regardless of political affiliation, ethnicity, religion, gender or belief. The Foundation will fund or facilitate access to qualified providers; it will not itself diagnose, prescribe or provide clinical treatment.

Foundation in formation. Proposed Foundation CIO in England and Wales. Not yet a registered charity. Grant applications and donations are not open through this website.

From preparation to accountable delivery

1. Establish — Complete registration and approve eligibility, safeguarding, privacy, conflicts and financial controls.
2. Prepare — Develop secure applications, verify referral routes and build funding and professional partnerships.
3. Deliver — Assess formal applications, record board decisions and release grants with two-person payment controls.
4. Learn — Review outcomes, use of funds and beneficiary feedback; publish an anonymised impact summary.

Longer-term ambition, 2026-2030: develop health and recovery support and trusted partnerships in the UK and internationally. All activities remain subject to assessed need, trustee approval, available funds, appropriate safeguards and alignment with the Foundation's charitable purposes.
